

## Water UK Confined Spaces City & Guilds 823

**Duration:** 3 Days

### **Introduction**

Water UK Confined Spaces City & Guilds 823 Safe Entry into the Water UK Classification NC2, NC3 and NC4 Category Confined Spaces using oxygen re-breather escape breathing apparatus as a part of the planned means of self rescue.

This is a City & Guilds of London Institute certificated competency based training and assessment course (City & Guilds Utilities Operations Scheme 5831 – Unit 823).

### **Who Should Attend?**

Persons nominated to work in or at Confined Spaces where work has been assessed and classified as Risk Level NC2, NC3 or NC4 under the Water UK scheme and who require pre-assessment training to prepare then for assessment in C&G Unit 823.

### **Content**

A review of the requirements of the Confined Spaces Regulations 1997 leads to an understanding of how to :

- ✦ Interpret the Water UK Confined Spaces classification scheme
- ✦ Risk assess residual hazards
- ✦ Recognise changing environments
- ✦ Use and interpret gas monitors to verify safe atmospheres
- ✦ Understand the nature and occurrence of problem atmospheres
- ✦ Use ancillary safety items – harness, ropes, winches and life lines
- ✦ Use oxygen re-breather escape breathing apparatus safely
- ✦ Work in a safe system of work
- ✦ React positively in an emergency situation

### **Training Methods**

A high proportion of hands-on demonstrations and practical exercises, supplemented with classroom based tutorials and pre and post course assessments.

### **Additional Information**

Delegates should provide a passport photograph on the day of training for production of ID Cards. For courses held at our centre in Wellingborough we can provide this service on your behalf using our on-site digital camera.

Delegates attending this course should be physically and mentally fit to withstand the rigours of training.

The content of this course includes **awareness** of periodic examinations of equipment. The course does not provide full training in maintenance of equipment. Additional training relating to this subject may be of benefit to delegates (further information available upon request).

For training held at your own location please ensure you make available a classroom suitable for the number of delegates attending, with a 240v power supply. Please ensure the practical area is free from harm, suitable for training and that it has been risk assessed.

### **Suggested Follow-Up Courses**
